# PASSPORT® GATES

Steel V-Track Roll Gate Design

Passport is an innovative roll gate system with a robust fabricated design. Its rigid framework enables the gate system to glide effortlessly across its on-grade track, and its V-Track design provides the least amount of space required for a slide gate system.

The reversible design of the PassPort roll gate insures a flawless installation by allowing the gate to be installed on either side of the gate opening.

STYLES

CLASSIC™ **MAJESTIC™** **GENESIS™** **INVINCIBLE™** **TRIDENT™** **STRONGHOLD™** **GAUNTLET™**

NOTE:
